Special Motices.

The Kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts viz.: the Anterior, and the Exterior.

The anterior absorbs. Interior consists of tissues of veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a condistor also, terminating in a single titoe, and called the Ureter. The ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz.: the Upper, the Lower, the Nervous and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability to retain. This frequently occurs in children.

The Kidneys are two in number, situated at the upper part of the upper part of the upper part of the low. The upper sandusky, O.

may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to affect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.—Pain occurring in the foins is indicative of the

bove diseases. They occur in persons disposed to acid stomach and chalky oncretions. THE GRAVEL.-The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the blad-

the water is not expelled from the bladder, but allowed to remain; it becomes
feverish, and sediment forms. It is
from this deposit that the stone is formed and gravel ensues.

Dropsy is a collection of water in
some parts of the body, and bears different names, according to the parts
affected, viz.: when generally diffused
over the body, it is called Anasarea;
when of the abdomen, Ascites; when
of the chest. Hydrothorax.

of the chest, Hydrothorax.

Treatment.—Himbold's highly conceptrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel. dropsical swellings, rheumatism, and gouty affections. Under this head we have arranged Dysuria, or difficulty have arranged Dysuria, or difficulty and pain in passing water, scanty se-cretion, or small and frequent dis-charges of water; Strangury, or stop-ping of water; Hematuria, or bloody urine; Gout and Rueumatism of the kidneys, without any change in quantity, but increase of color, or dark water. It was always highly recommended by the late Dr. Physick, in

these affections.

This medicine increases the power of digestion, and excites the absorbents into healthy exercise, by which the watery, or calcareous, depositions, and all unnatural enlargements, as well as pain and inflamation, are reduced, and it is taken by men, women, and children. Directions for use and diet accompany. accompany.

PHILADELPHIA. PA., Feb. 25, 1867. H. T. HELMBOLD, Druggist: Dear Sir-I have been a sufferer, for apward of twenty years, with gravel, bladder, and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent

physicians, experiencing but little Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all Physician, of Cleveland, Ohio

kinds of advertised remedies, and had tound them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted

A correspondent of the Ohio Farmer consulting again with the druggist, I On the second page of this issue will after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might a perfect cure, knowing then it would be of greater value to you, and more

is effected after using the remedy for business. I have not used any now for three months, and feel as well in all respects
